

Joining forces to set standards and regulate our industry

ABMA ACCREDITED INDUSTRY PRACTITIONER

Training Services Provider

TRAINING SERVICES

Australian Building Management Accreditation (“**ABMA**”) seeks to recognise capability to deliver training services relating to ABMA Accredited training programs.

The ABMA is not a Registered Training Organisation and nor does it intend to become one, however, having identified a need for training programs specifically tailored to build skill and capability in the building management industry, the ABMA has developed a suite of training programs centred around the objective standards documented within the ABMA Building Management Code©. Having tailored these programs, the ABMA now seeks to align with training services providers who can demonstrate a high level of training proficiency so as to

deliver the training to the required standard. The ABMA Accredited Trainer program provides recognition of quality trainers, highly specialised in our unique industry and fully cognisant of the highly specialised and complex field of endeavour that we are focussed in. The ABMA believes that demonstrated skill and capability in our unique field of practice is paramount to effective and sustainable delivery to our consumers.

For quality trainers seeking to expand their practice into the community living sector, the ABMA now offers Industry Practitioner Accreditation – Trainer. To join the register of ABMA Accredited Trainers please contact the ABMA via Freecall 1800 123 262 or email help@abma.com.au

WHAT IS AN ABMA ACCREDITED TRAINER?

Any training services provider in Australia that seeks to expand its suite of training programs into the building management and compliance disciplines may apply for ABMA Accredited Trainer status. Train-the-Trainer programs are run periodically for suitably qualified persons.

WHAT QUALIFICATIONS DOES AN ABMA ACCREDITED TRAINING SERVICES PROVIDER NEED?

In addition to “Training & Assessment” tertiary qualifications it is preferable that the ABMA Accredited Trainer can demonstrate proficiency in knowledge of the community titles sector and building maintenance/facilities management.

ABMA Accredited Industry Practitioners go onto the ABMA Register which is published for industry consumer reference.

Full details are available via Freecall 1800 123 262 or email to help@abma.com.au
